2023**

10

Why FPS is important?

- We come up with futuristic solutions to global issues
- We can plan for the future
- It addresses different issues and possible future scenarios with challenges that could occur

Item 4.1, Presentation - Future Problem Solving po
February, 2023

What we are fundraising for

- Travel** We need to fundraise money to pay for our flights and transport in America
- Accomodation** We will be staying on the University of Massachusetts campus and in NYC
- Registration** Each students pays a fee for the International Conference costs.
- Meals** Food while we are not in the University campus.

How are we fundraising?

Approaching businesses

We have been asking local businesses for donations, including raffle contributions. We will continue with this and have been getting businesses that support future thinking

Individual money making schemes

So far we have

- Street stalls
- Mowing and Gardens

We are planning to

- Busk
- Pet sit
- Car wash

Organising events

We are in the middle of organising several events

- Raffle
- Movie night

Working towards

- Mufti Days
- Business FPS Morning teas
- Pie sales

Asking Family, Friends, and Future thinkers

We can ask our family and friends or Future thinkers to pitch in small amounts of money and support.

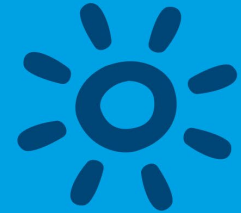

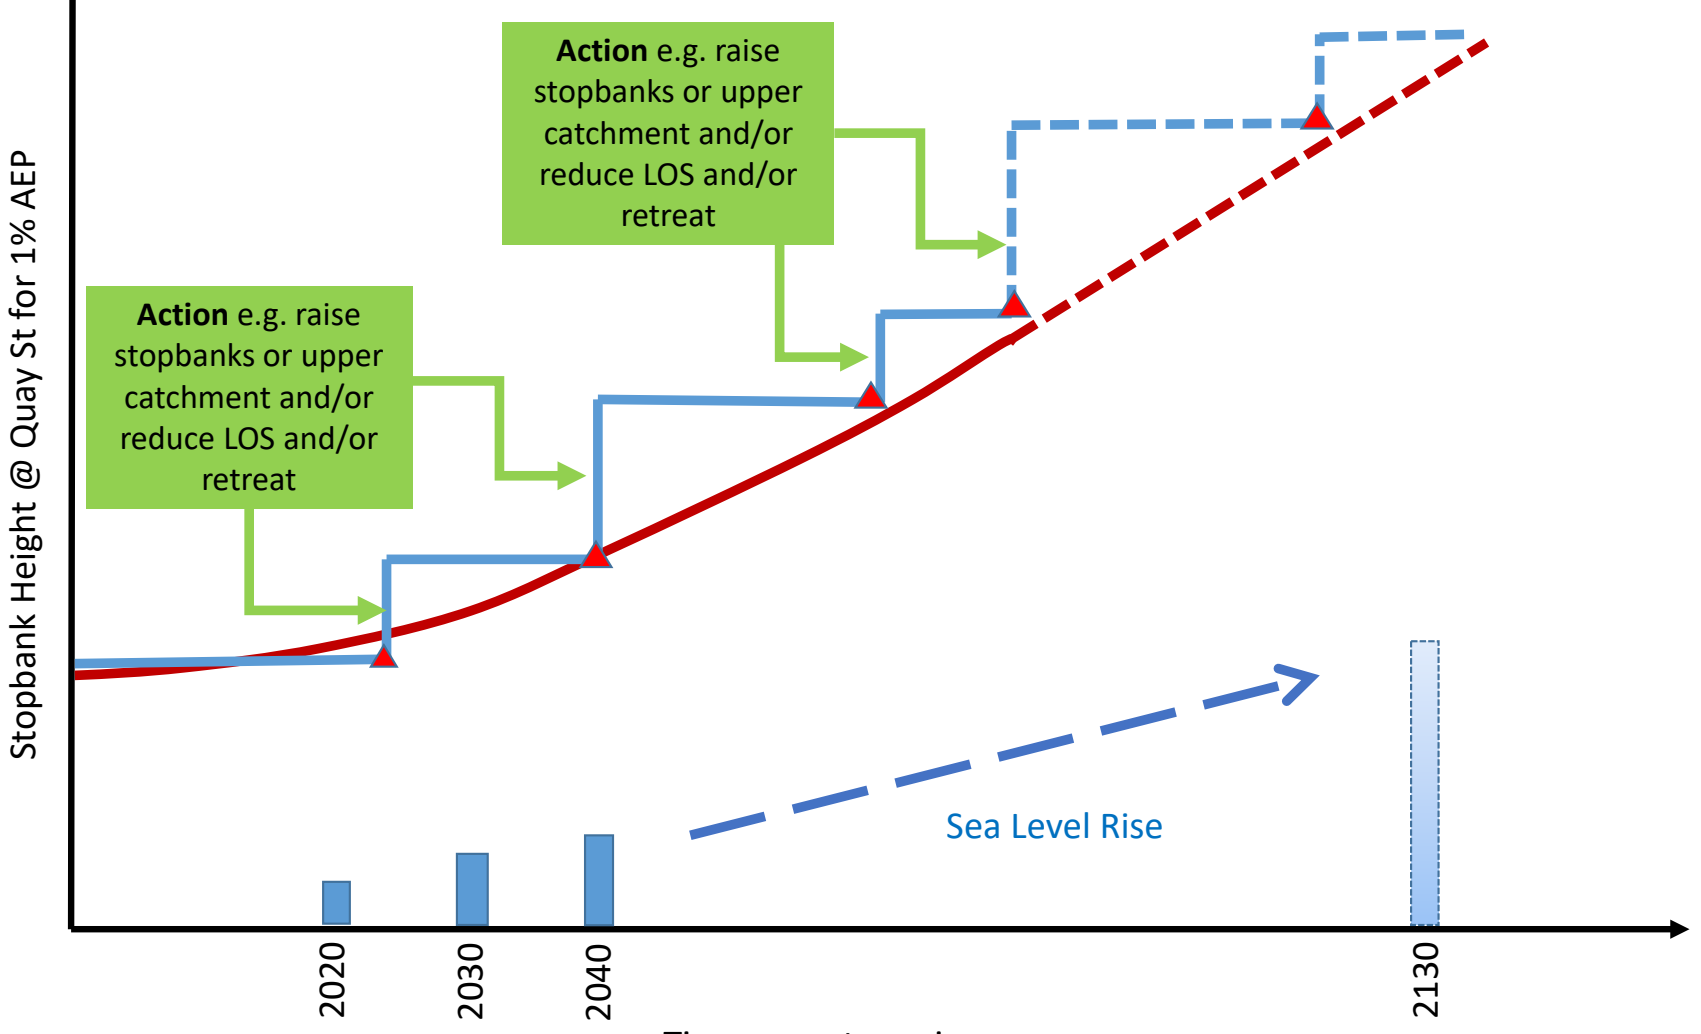

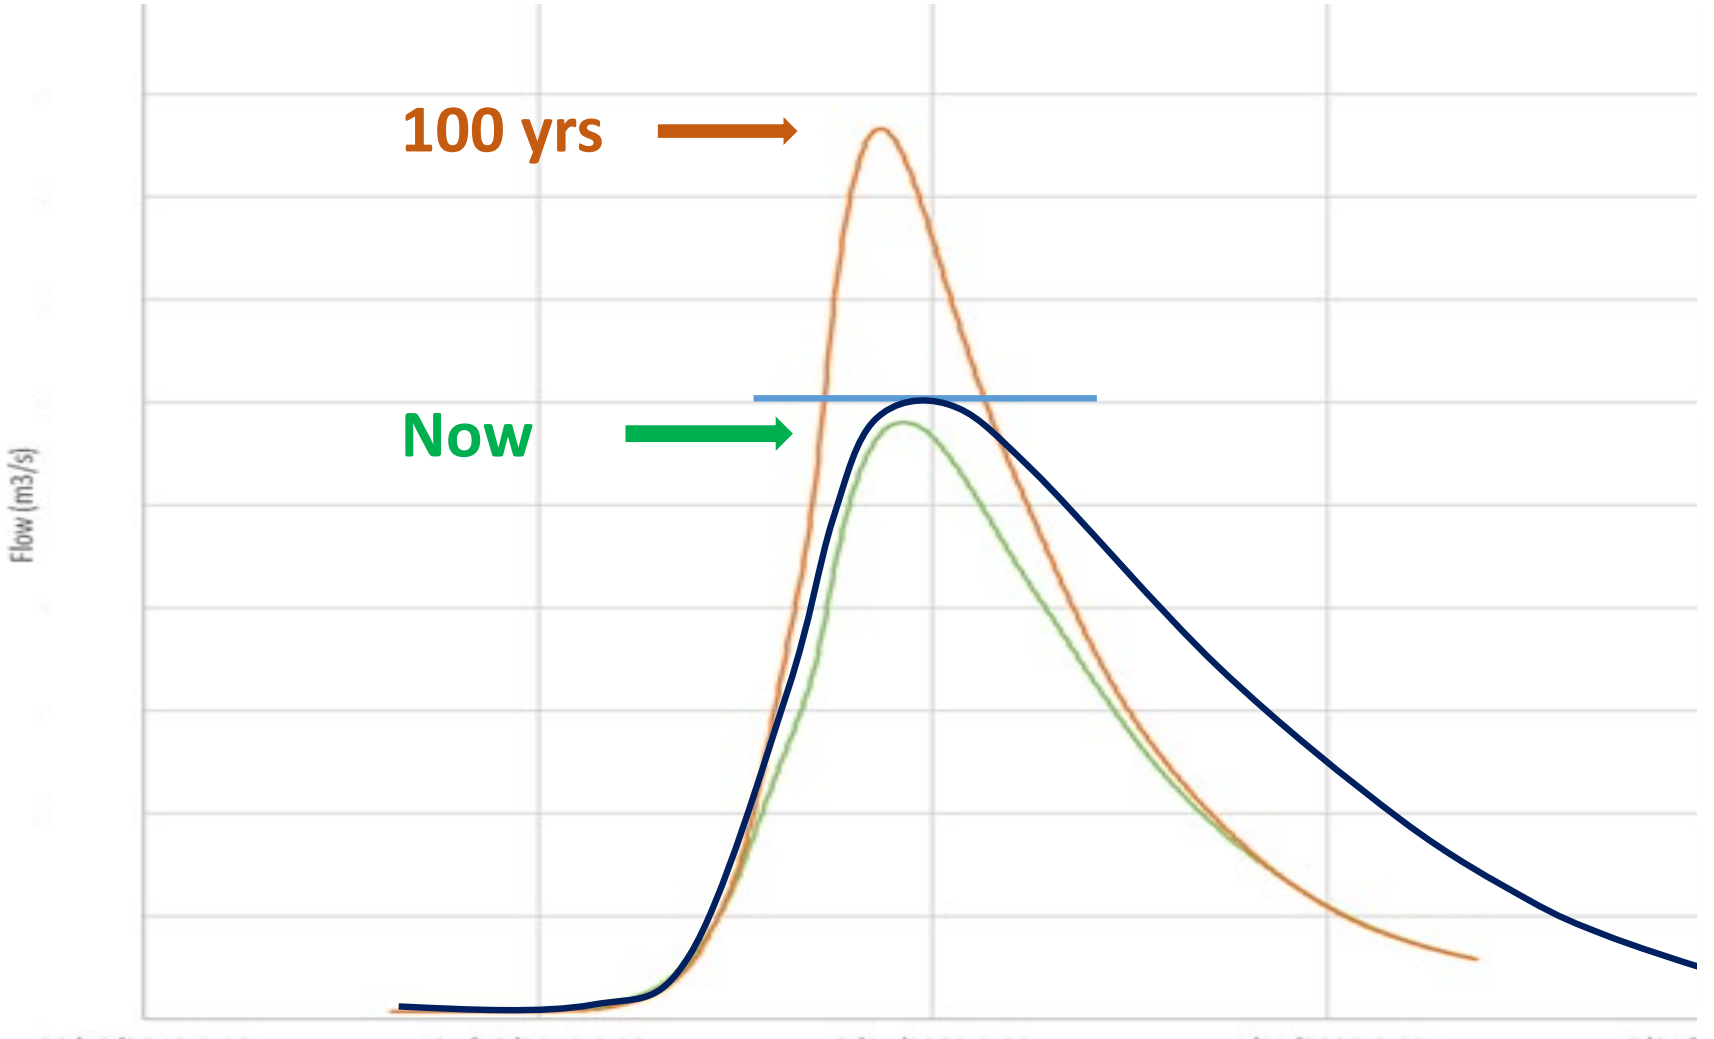

Climate Change Resilience Whakatāne Tauranga Catchment

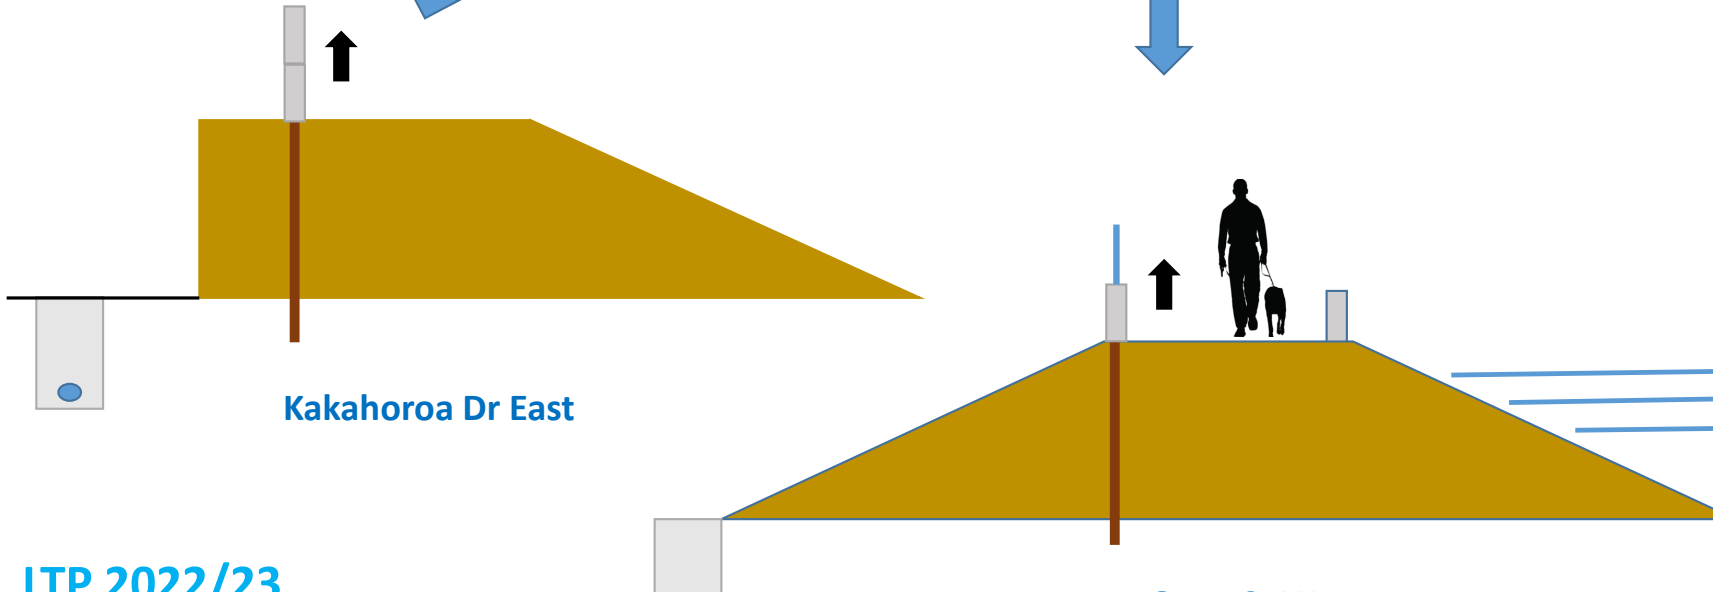

Presentation to Councillors

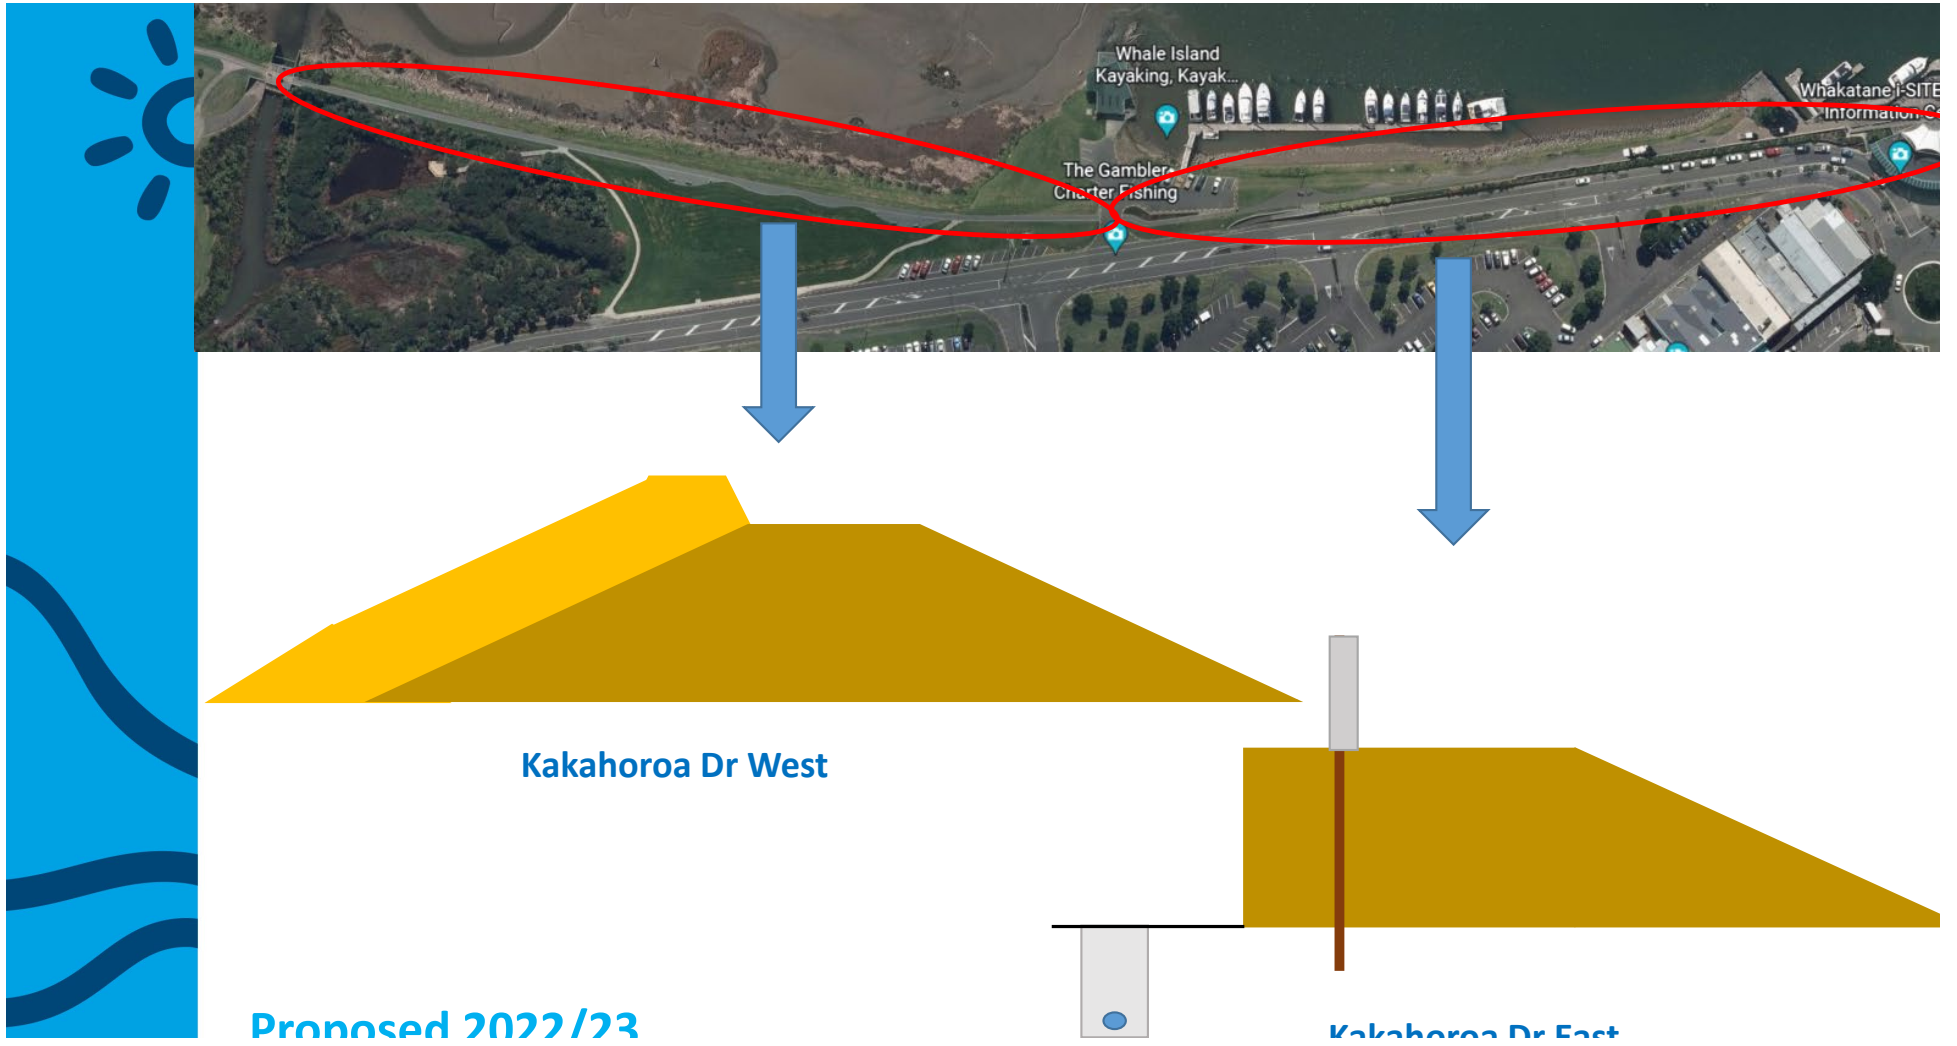

Feb 2023

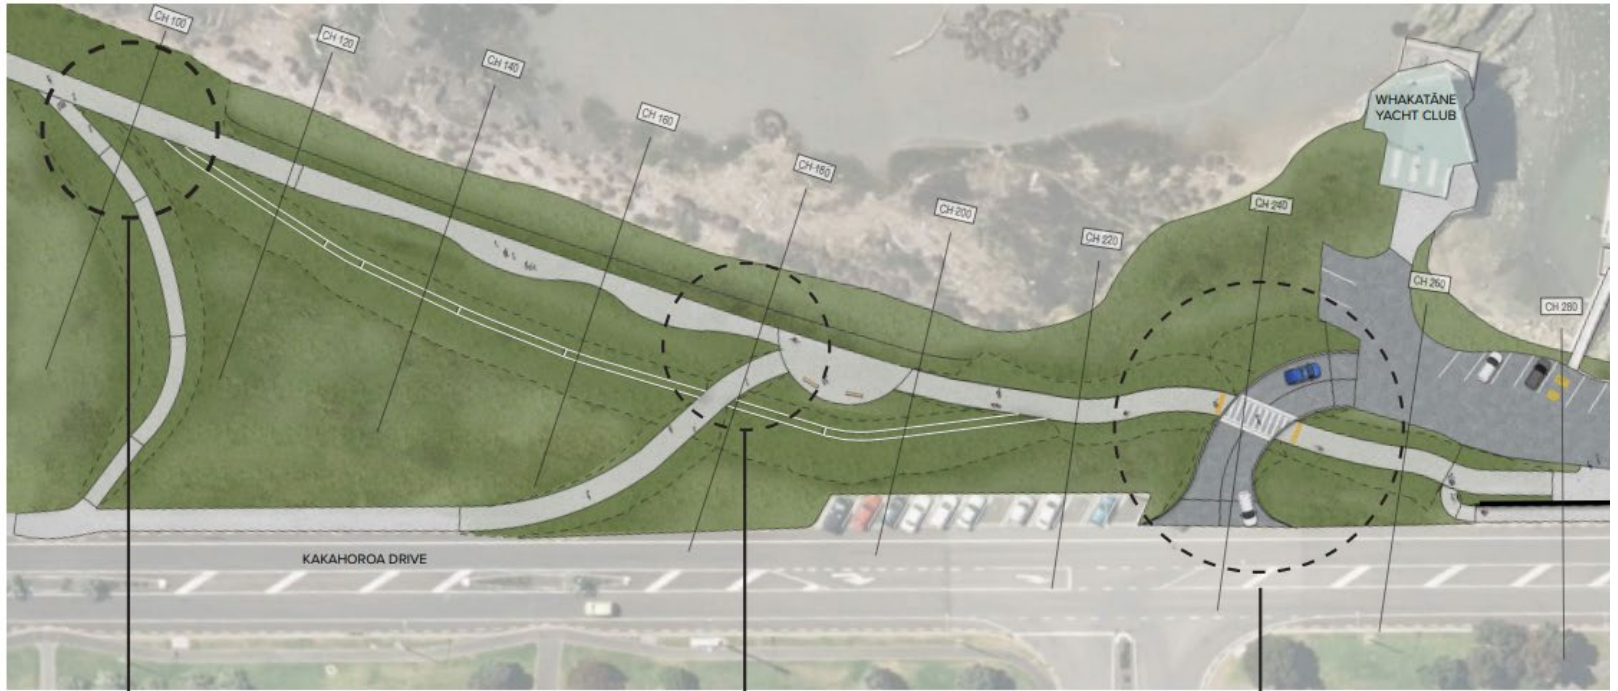

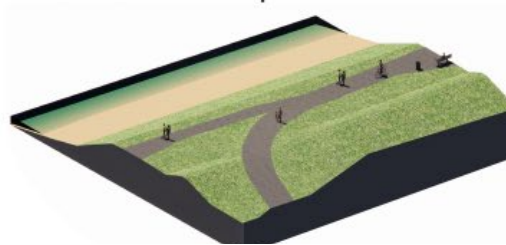

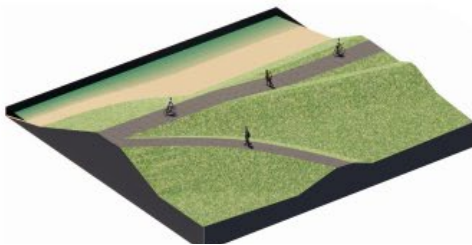

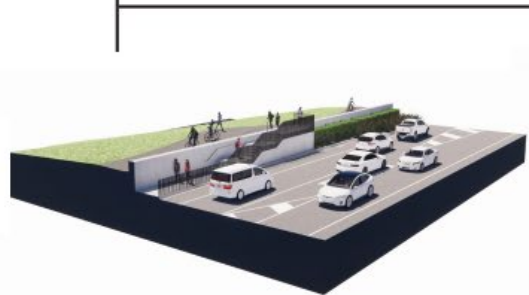

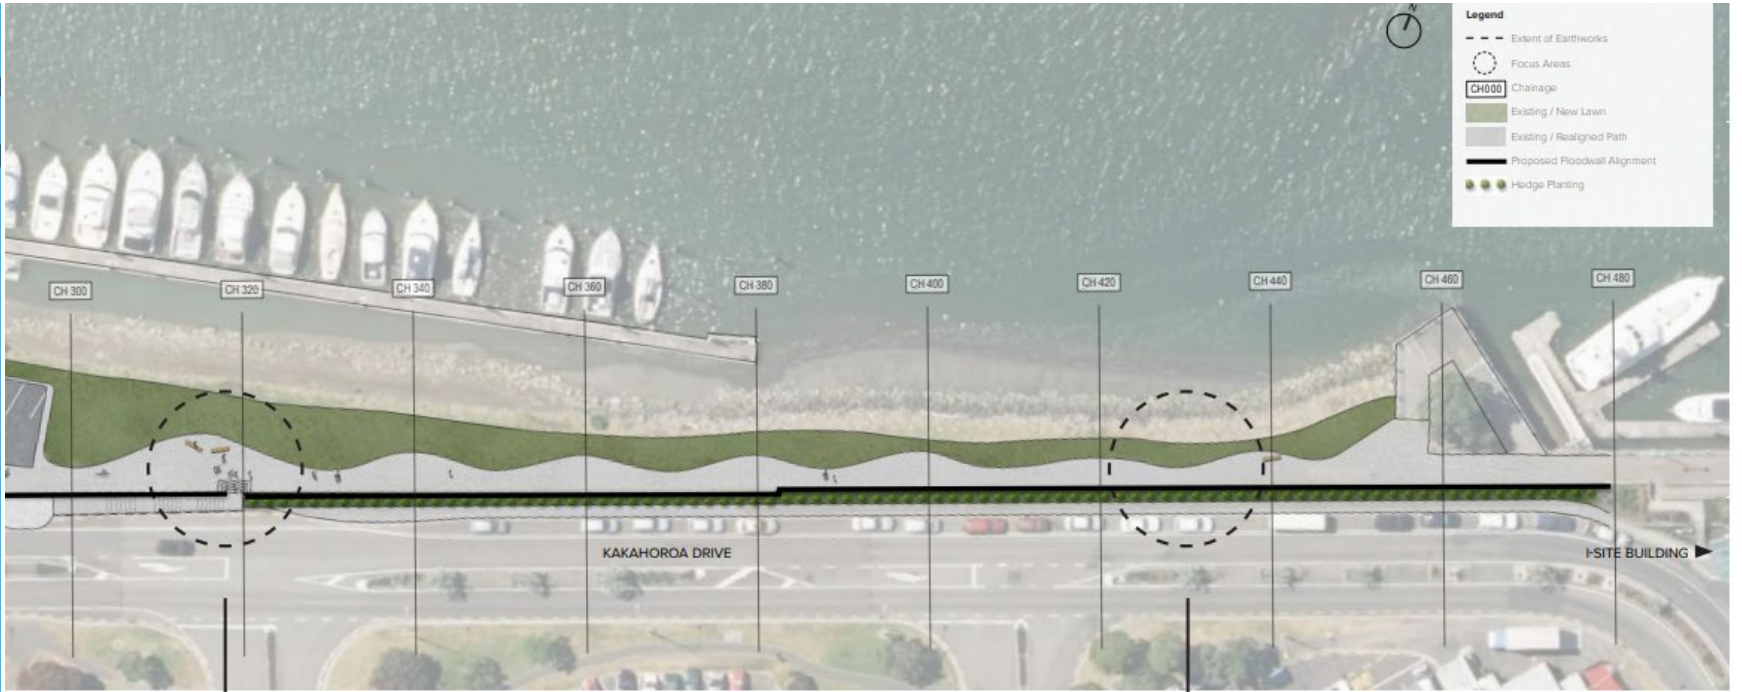

Overall Site Plan (CH100 to CH400)
PATH ALIGNMENT AND KEY INTERVENTIONS

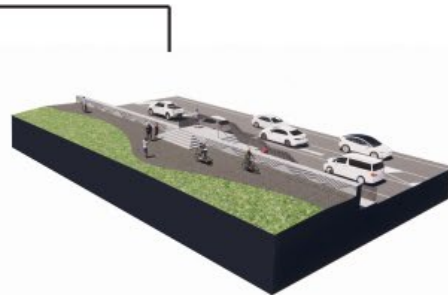

3D Axonometric Sections

CH300 - 340

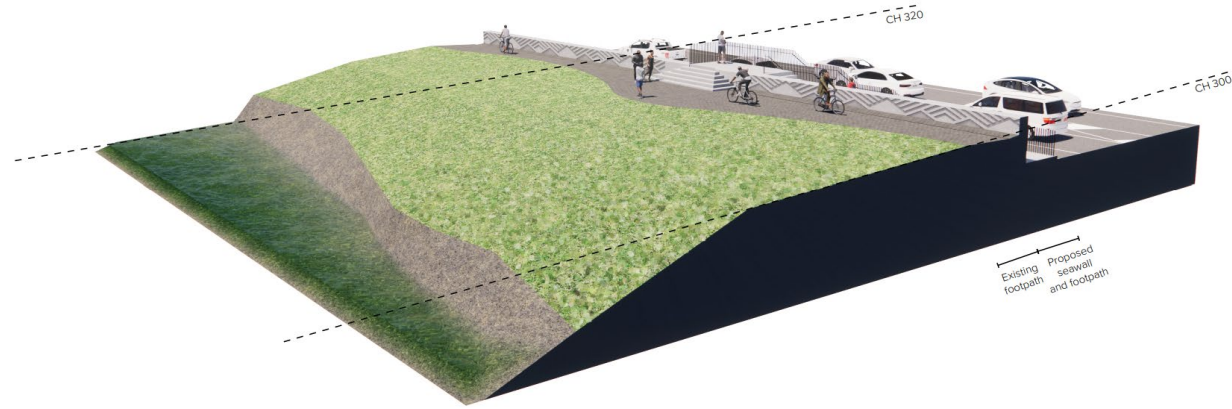

CH300 - 340

CH430

**Indicative wall pattern to illustrate could be achieved until confirmed engagement outcomes*

OPTION 2

Sheet piles to ground level tied into a concrete floodwall above, with plain pre-cast concrete panels

**As per Option 1, decorative patterns could be incorporated into the concrete panels*
