Ngāti Tūwharetoa: 3

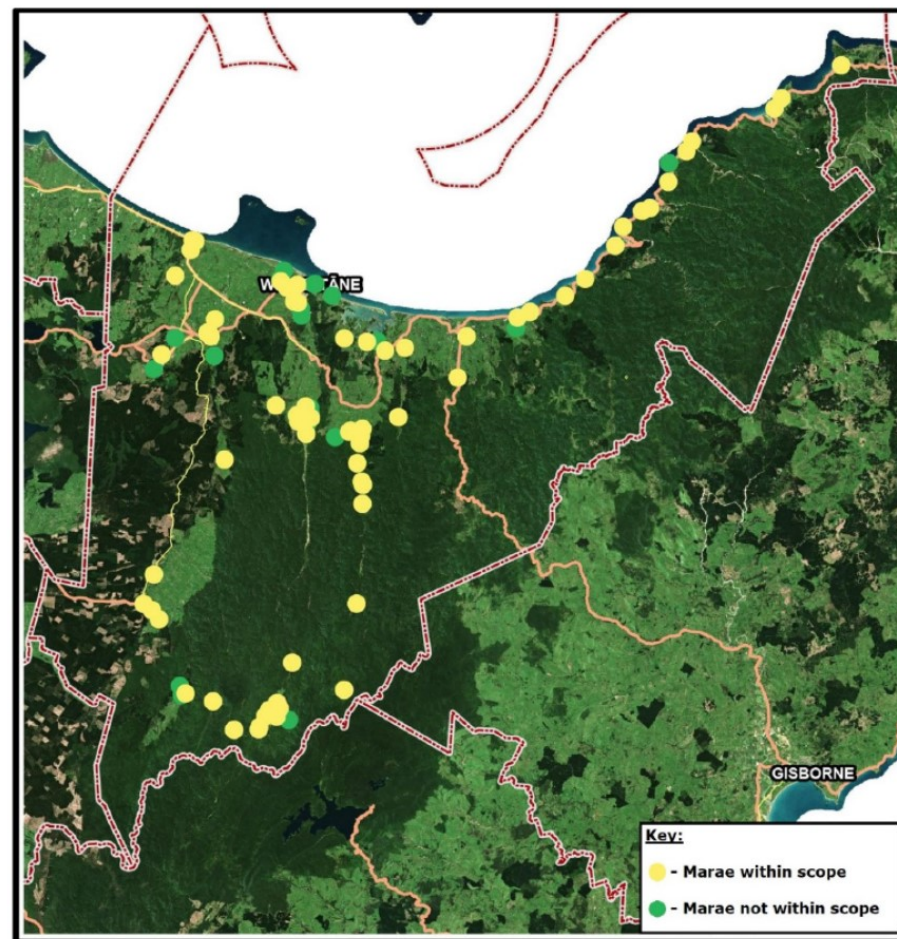

## Inland Cluster:

Tūhoe: 31

Ngāti Manawa: 3

Ngāti Whare: 1

**NOTE:** These marae numbers are subject to change

## Preparing to engage...

- Taking on learnings from Tauranga Moana project
  - Use case studies to help inform Kōhī – provide contacts
- Engaged with both Whakatāne and Ōpōtiki DC early
- Discussions with Councillors and staff
  - Many different opinions on best way to engage
  - Need to be adaptable and be ready to change approach
- Be clear on the “Why”
- Don’t rush – this could take several years
- Different iwi/hapū will require different approaches
- Expect some marae to be added to project, and others fall off

**GOAL: Safe wastewater and water supply for tangata whenua, manuhiri and the environment**
